

New disease-focused registry profiles

You requested more disease-based registries, and we are delivering! We now have more profiles on disease registries - Parkinson's, Multiple Sclerosis, Diabetes, Cystic Fibrosis, Congenital Anomalies, Cancer, ...just to name a few.

Important Upgrade to Search Page

► This Fall, the Search page will use the search field label '**Continent**' (instead of '**Region**'). Nothing other than the name will change.

► Profiles of databases covering multiple countries will be included in 'Search Results' when any one country matches a user's Country search criteria. (Currently, only matches to 'Coordinating Country' appear in 'Search Results'.)
